**Cornus sericea ‘Alleman Compact’** 205  Redosier Dogwood  p. 310

Hardiness  
Mature size  
Identifying characteristics

What features make this plant suitable for a wide range of uses in the landscape?

What is the major pest problem of the species?

**Thuja occidentalis ‘Hetz Midget’** 206  Globe Eastern Arborvitae  p.1134

Hardiness  
Mature size  
Identifying characteristics

What characteristics have made this cultivar popular for many years?

What is the most appropriate use for ‘Hetz Midget’?

**Thuja plicata ‘Green Giant’** 207  Green Giant Western Arborvitae  Cupressaceae  p. 1140

Hardiness  
Mature size  
Identifying characteristics

What cultural conditions are best for this plant?

What is a good landscape use for this cultivar?
**Viburnum nudum 'Winterthur'**  208  Winterthur Smooth Witherod Viburnum  Caprifoliaceae  p. 1196

Hardiness
Mature size
Identifying characteristics

To what other species is this *V. nudum* closely related?

What are the most ornamental features of Winterthur?

**Forsythia  x intermedia  'Courtasol'**  209  Gold Tide Forsythia  Oleaceae  p. 435

Hardiness
Mature size
Identifying characteristics

How would you distinguish between Gold Tide and *F. viridissima* ‘Klein’?

What is the origin of many of the Forsythia cultivars planted today, referred to as *F. x intermedia*?

**Ilex crenata  'Wayne'**  210  Wayne Japanese holly  Aquifoliaceae  p. 527

Hardiness
General growth and identifying characteristics

How does this Japanese holly compare with Hetzii at Shelter Gardens?

Dirr compares it to the cultivar 'Helleri'. What growth habit does this cultivar have?
**Buxus sinicia var. insularis 'Wintergreen'** 211  Wintergreen boxwood  Buxaceae  p. 155

Formerly named *B. microphylla*

Hardiness
Mature size
Identifying characteristics

How does this boxwood cultivar compare with the Koreana cultivar?

**Juniperus horizontalis 'Wiltoni'** 212  Blue Rug Creeping Juniper  p. 590

Hardiness
Mature size (species)
Identifying characteristics

Growth characteristics of this cultivar

How do winter and summer colors differ?

Dirr lists over 60 cultivars of *J. horizontalis* in his text. Why are there so many?

**Juniperus procumbens 'Nana'** 213  Dwarf Japanese garden juniper  Cupressaceae  p. 590

Hardiness
Mature size (species)  (this cultivar)
Identifying characteristics

One of the problems with this species is the disease Phomopsis. What growing conditions would you select in order to keep this problem to a minimum if this cultivar were to be used?
**Juniperus chinensis 'Nick's Compact'**  214  Nicks dwarf spreading juniper  Cupressaceae  p. 579

Hardiness

What are the growth characteristics of this cultivar?

Which juniper may this plant be identical to?

What qualities of this cultivar make it useful for landscape plantings?

**Taxus cuspidata ‘Capitata’**  215  Capitata Japanese Yew  Taxaceae  p. 1126

Hardiness

Mature size

Identifying characteristics

How might you distinguish between *T. cuspidata* and *T. x media* based on morphological characteristics of the needles and buds?

What is the most common use for ‘Capatata’ yew?
