Instructors:
Brad Fresenburg, Turfgrass Specialist  
Division of Plant Sciences  
Turfgrass Research – South Farms  
E-mail: FresenburgB@missouri.edu  
Phone: (573) 442-4893
Dr. Xi Xiong, Assistant Professor  
Division of Plant Sciences  
214 Waters Hall  
E-mail: XiongX@missouri.edu  
Phone: (573) 882-1824
Dr. Stephen H. Anderson, Professor  
Soil, Environmental and Atmospheric Sciences  
302 ABNR Building – Soil Science  
E-mail: AndersonS@missouri.edu  
Phone: (573) 882-6303
Robert R. Broz, Extension Assistant Professor  
Agricultural Extension – Food Science & Nutrition  
205 Agricultural Engineering  
E-mail: BrozR@Missouri.edu  
Phone: (573) 882-0085

Division contact: Ms. Rita Gerke, Administrative Assistant, (573) 882-7511

Meeting Time: Tuesday, 8:00 – 8:50 am (lecture) & Thursday, 8:00 – 9:50 am (lecture/lab)

Location: 200 Waters

Prerequisite: Plant Science 3355 or consent of instructor

Course Description: Provides turfgrass majors a more informative and applicable look at mathematics of turfgrass management, application techniques, cultural practices, and soil/water relationships applicable to careers in golf course and sports turf management, lawn care, and professional grounds maintenance.

Learning Objectives:
1) Interpret pesticide labels and pesticide formulations.
2) Apply mathematical calculations for irregular area measurements (putting greens, lakes, fairways, etc.), pesticides, fertilizers, topdressing, and irrigation/water management.
3) Apply basic principles in the calibration of sprayers and spreaders.
4) Analyze components of drainage and irrigation designs for golf courses and athletic fields.
5) Conduct particle size analysis, uniformity coefficients and $K_{saturation}$ to better understand soil/water relations in multiple root-zone profiles for golf courses and athletic fields.
6) Formulate best management practices for turfgrasses under summer stress.
7) Apply best management practices for turfgrasses as they relate to the latest water quality issues affecting the turfgrass industry.
8) Understanding what it takes to be a successful manager.
9) Develop an annual budget.
References:

Students will be required to purchase “The Mathematics of Turfgrass Maintenance” book. However, the other listed reference materials will be very helpful throughout the course. Students will receive a large three-ring binder on the first day of class to hold a series of handouts pertaining to the course objectives.

Professionalism Statement: Students are guided by specific values and characteristics. Characteristics on which you will be judged in this course include punctuality, attendance, collegial attitude, and participation. Because this course relies extensively on discussion and other interactions, attendance is crucial to your success and that of your peers. In accordance with University policy, there are no excused or official absences; however, if an illness, emergency, or special circumstances arises, contact the coordinating instructor prior to the scheduled class session; otherwise, your attendance and participation are firm expectations.

Statement for A.D.A.: If you need accommodations because of a disability, if you have emergency medical information to share with me, or if you need special arrangements in case the building must be evacuated, please inform me immediately. Please see me privately after class, or at my office.

To request academic accommodations (for example, a note taker or extended time on exams), students must also register with the Office of Disability Services (http://disabilityservices.missouri.edu), S5 Memorial Union, 882-4696. It is the campus office responsible for reviewing documentation provided by students requesting academic accommodations, and for accommodations planning in cooperation with students and instructors, as needed and consistent with course requirements. For other MU resources for students with disabilities, click on "Disability Resources" on the MU homepage.

Nondiscrimination Statement: Faculty and staff in the College of Agriculture, Food and Natural Resources are committed to cultural diversity and nondiscrimination toward all people with regards to race, color, religion, national origin, ancestry, gender, age, all veterans, and sexual orientation.

Statement for Academic Dishonesty: Academic honesty is fundamental to the activities and principles of a university. All members of the academic community must be confident that each person's work has been responsibly and honorably acquired, developed, and presented. Any effort to gain an advantage not given to all students is dishonest whether or not the effort is successful. The academic community regards academic dishonesty as an extremely serious matter, with serious consequences that range from probation to expulsion. When in doubt about plagiarism, paraphrasing, quoting or collaboration, consult your course instructor.
# Course Schedule

Subject to change due to availability of instructors and students’ basic knowledge of topics.

### Week 11
- **T** Physiology of turfgrasses under stress
  - Xiong

### Week 11
- **Th** Physiology of turfgrasses under stress
  - Xiong

### Week 12
- **T** PLS Worksheet assignment (50 points)
  - Fresenburg
- **Th** Managing a professional sports field
  - J. Scott/J. Minnick

### Week 13
- **T** Water quality issues affecting turfgrass management
  - Broz
- **Th** Pest reduction through cultural practices
  - Fresenburg

### Week 14
- **T** Diagnosis of turfgrass problems (field trip)
  - Fresenburg
- **Th** Budgeting – Bringing it all together!
  - Fresenburg

### Week 15
- **T** Standing apart, Success in the industry
  - Mike Munie
- **Th** Budgeting continued Worksheet assignment (50 points) Review
  - Fresenburg

### Week 16
- **T, Th** Reading Day
  - Fresenburg

### Finals Week
- **Final Exam (150 points)
  - 200 Waters Hall
  - Fresenburg

---

**Grading: Undergraduate level - 4355**

- **Worksheets & lab assignments:** 8 – 50 point assignments (400 points)
- **Mid-Term Exam:** 150 points
- **Final Exam:** 150 points
- **Total Possible Points:** 700

**Grading scale:**

- 677 to 700 points = A+, 653 to 676 points = A, 630 to 652 points = A-
- 607 to 629 points = B+, 583 to 606 points = B, 560 to 582 points = B-
- 537 to 559 points = C+, 513 to 536 points = C, 490 to 512 points = C-
- 467 to 489 points = D+, 443 to 466 points = D, 420 to 442 points = D-
- Less than 420 = F

Worksheet and lab assignment grades will be reduced 10% if turned in after the due without prior approval from the instructor. Due dates are subject to change as the instructor warrants. Final exam dates are set according to the university’s final exam schedule and will not change.
Grading: Graduate level - 7355
Worksheets & lab assignments: 8 – 50 point assignments (400 points)
Mid-Term Exam: 150 points
Final Exam: 150 points
Topics Papers: 3 – 100 points papers (300 points)
Total Possible Points: 1000

Grading scale:
900 to 1000 points = A
800 to 899 points = B
700 to 799 points = C
Less than 700 = F

Graduate student will write three issues papers (3 to 5 pages) on topics of their choosing pertaining to turfgrass management on golf courses or sports fields approved by the instructor. Due dates will be set forth by the instructor in the beginning of the course. Worksheet and lab assignment grades will be reduced 10% if turned in after the due without prior approval from the instructor. Due dates are subject to change as the instructor warrants. Final exam dates are set according to the university’s final exam schedule and will not change.
